Average Heating Oil Prices Rise 11 Cents Across Maine

Augusta, Maine – The Governor’s Office of Energy Independence and Security (OEIS) conducted its weekly heating fuel price survey on Monday, January 9, 2012 and found that the current statewide average cash price for No. 2 heating oil to be **\$3.68 per gallon**, which is up \$0.11 from last week.

“As the week begins, crude oil prices changed little as Middle East tensions, positive U.S. economic news and Europe’s enduring soft economy continued to dominate market conditions and outlooks,” said OEIS Director Ken Fletcher. “Unfortunately, it is unclear as to exactly why heating oil prices appear to be now following recent escalations in crude oil prices and have jumped across the nation in the last week. What we do know is that our lack of control over pricing compels us to examine alternatives, including energy efficiency improvements, conservation and heating fuel options.” OEIS has included a calculator on its web site that will allow consumers to estimate home heating costs and price impacts of various energy sources. See http://www.maine.gov/oeis/docs/heatcalculatorMEv3_1.xls.

As of January 9, 2011

Heating Oil	Statewide	Southwest	Central	Eastern	Western	Northern
Average	3.68	3.62	3.76	3.71	3.55	3.82
High	4.05	3.75	4.05	3.85	3.75	3.85
Low	3.45	3.45	3.55	3.45	3.45	3.80
Kerosene	4.08	4.03	4.14	4.10	3.93	4.22
Propane	3.20					

It is important to note that the price for heating oil is a statewide average and that prices in a given geographic region of the state may be considerably higher or lower than the statewide average. Within the OEIS sample, the lowest actual heating oil price of \$3.45 per gallon can be found in the Southwest, Eastern and Western regions. The highest price of \$4.05 per gallon was found in the Central region. The statewide kerosene price average is \$4.08 per gallon at this time. The statewide average for propane ***based on a use of 925 gallons a year*** is \$3.20 per gallon. The table above provides current Maine cash prices in dollars rounded to the nearest penny. On January 9, the price of WTI crude oil, a major driver of refined petroleum product prices, including heating oil, was at \$101.44 per barrel. Efficiency Maine links Maine homeowners and businesses with qualified, certified contractors who provide access to energy improvement options.
